

Hadoop Files to Edit

Files Location: C:\hadoop\hadoop-3.3.6\etc\hadoop

1. core-site.xml

Add the following code in the configuration tag

```
<property>  
<name>fs.defaultFS</name>  
<value>hdfs://localhost:9000</value>  
</property>
```

2. mapred-site.xml

Add the following code in the configuration tag

```
<property>  
<name>mapreduce.framework.name</name>  
<value>yarn</value>  
</property>
```

3. yarn-site.xml

Add the following code in the configuration tag

```
<property>  
<name>yarn.nodemanager.aux-services</name>  
<value>mapreduce_shuffle</value>  
</property>  
<property>  
<name>yarn.nodemanager.auxservices.mapreduce.shuffle.class</name>  
<value>org.apache.hadoop.mapred.ShuffleHandler</value>  
</property>
```

4. hdfs-site.xml

Add the following code in the configuration tag

```
<property>
<name>dfs.replication</name>
<value>1</value>
</property>
<property>
<name>dfs.namenode.name.dir</name>
<value>[Enter the Namenode File Location]</value>
</property>
<property>
<name>dfs.datanode.data.dir</name>
<value>[Enter the DataNode File Location]</value>
</property>
```
